

Thank you all for mobilising yourself to support Chorley residents during these challenging times

Through gathering all your fantastic support we have launched 'Chorley Together' - a hub which unities all the help and support of all our partners from the public, private and voluntary sector, with local groups, organisations and individuals to support our vulnerable residents in this time of crisis.

You will be identifying and supporting individuals in your local communities but for those residents who are unaware of their local support or if your residents need extra support we have launched a dedicated service to help and support those in need.

People can call **01257 515151** or email contact@chorley.gov.uk where the team will deal with the enquiry

To support the individual we will be able to utilise the extensive support within the Chorley Together Hub to signpost to key community provision like yours who can help them

We are also actively reaching out for people to contact us to volunteer with the community recovery effort. If your group or organisation would welcome more volunteers please let us know and we can link these volunteers with your group – please email communities@chorley.gov.uk

We'll be promoting this service using a number of channels, including launching a new web page www.chorley.gov.uk/chorleytogether

To help us all regular communicate across our Chorley Together network we will be setting up a dedicated 'Chorley Together' Facebook group. Please let us know your Facebook profile name so we can invite you

Thank you to everyone involved in pulling this together

Update – 03/04/2020

Thank you all for supporting Chorley residents.

To help us all regular communicate across our Chorley Together network we have now set up a dedicated 'Chorley Together' Facebook group.

Please request to join here - <https://www.facebook.com/groups/264244091249616/>

This will be a closed group for key/main contacts in your group or organisation.

Please also pass on the link to the relevant people who need access

This will to enable Chorley Council to communicate with you so we can collectively support each other through this time.\

We also hope this group will be helpful for community groups, partners and organisations to share information with each other to help coordinate support available in Chorley. This may be sharing information on food supply help within the borough, medication collection services, befriending services or any other support or schemes that may benefit the community during this time.

Thank you to everyone involved
